CHANGING THE FACE OF AGRICULTURE

BY LINKING HANDS AROUND THE WORLD.
The MANRRS mission is to promote academic and professional advancement by empowering minorities in agriculture, natural resources, and related sciences. To achieve this goal, the right tools and rules must be available to promote and present the MANRRS brand consistently.

These guidelines have been developed so that you can become familiar with and use the MANRRS brand with consistency, accuracy, and purpose. This document will focus on the core elements of the brand including logo usage, color palettes, typefaces and photography direction.
IDENTITY + BRAND SYMBOLS
This is the stacked version of the primary logo. The stacked and horizontal versions of the logo may be used interchangeably depending on placement restrictions.
This is the horizontal version of the primary logo. The stacked and horizontal versions of the logo may be used interchangeably depending on placement restrictions.
The brand symbol can only be used by itself if the complete MANRRS logo is present somewhere else on the branded piece. Once more equity is built into the MANRRS brand, the brand symbol may be used by itself. The brand symbol may appear in black or white.
For specific efforts related to Junior MANRRS we have a specific logo solution prepared. Please follow all main brand guidelines for implementation.
UNIVERSITY ADAPTATION

To support our chapters further, we have added flexibility within our logo solutions to provide universities room to make MANRRS feel a part of their own story.

GUIDELINES FOR UNIVERSITY USAGE

1. Keep “MANRRS” typography black, along with school name typography.
2. Use the font included in the template for school name - do not customize.
3. Edit colors of the brand mark into no more than 2 colors (keeping the “front” hands matching, as well as the “back”, respectively).
4. If a school color is white, use a black outline (included in template file).
For uses where the logo needs to placed on a solid color or an image, white, black, or grey may be used. The logo must be legible and appropriate contrast must be apparent.
Green and gold represent the primary color palette and should represent 75% of the colors used on any branded materials. Light blue, grey and blue should make up the additional 25% and should be used as accent only. Avoid large floods of color using these accent colors.
The MANRRS logo requires a minimum amount of clear space surrounding the logo proportionate to the height of the M in the logo. Nothing should intrude into this defined space.
LOGO DON'Ts

To ensure that the MANRRS brand remains unified across all applications, please follow the guidelines as shown in the examples above.

- Do not distort, skew or alter
- Do not use any unapproved colors
- Do not use without brand symbol
- Do not apply a stroke or any other effects
- Do not rearrange logo or change proportions
- Do not alter the colors
- Do not use as an outline
- Do not substitute fonts
- Do not lighten or change saturation

PHOTOGRAPHY INSPIRATION

Please use these photos as a guide for choosing photography. MANRRS does not own these photos and they should only be used for inspirational purposes. Choose photos that show a diverse range of gender, ethnicity and environments.
EXAMPLES OF BRAND APPLICATION

The MANRRS brand symbol may appear on the front by itself because the complete logo is on the back.
